

r17.4.12 Changelog

+-----+
| r17.4.12 Release - 74208 |
+-----+

Release day - 6th January 2021

Bug

- [DSOF-15267] - Bulk adding Projector Devices no longer causes d3 to completely stall
- [DSOF-15470] - OmniCal: high memory usage in VimbaCamServer no longer occurs during large captures
- [DSOF-15534] - OmniCal: projector calibration outliers are now filtered before CamerasThenEachProjector bundle adjustment mode
- [DSOF-15565] - OmniCal: images are no longer sent back to d3 after a capture has been stopped
