Fixes

- **DSOF - 30993** - Cameras no longer stutter in their movement when the parent prop is animated, as they did before r31.0.3.
- **DSOF - 30650** - Servers with IP - VFC cards in PTP Sync Mode no longer report errors when changing the PTP profile, as they did before r30.7.2.
- **DSOF - 30850** - Using Border Expansion with Spherical Mapping no longer distorts the final results with certain meshes.
- **DSOF - 30999** - The Python API method `overlayMessage` no longer misses some of its parameter names.
