Released: November 12th 2025

Fixes

- **DSOF - 31466** - Track editing performance has generally been improved when working with many layers.
- **DSOF - 31457** - Newly ingested **Videoclips** are now correctly returned by the `v1/resources` API endpoint.
- **DSOF - 31485** - Keyframes now correctly snap to bar intervals at all zoom levels.
- **DSOF - 31385** - The [Task Status API endpoint](#) now correctly reports about tasks when they are **Queued** and **Started**.
