

# Designer r32.2.2 Release Notes

---

## [Download r32.2.2 Full \(Pro\)](#)

Full (Pro) build: 235800

Starter build: 235801

Released: *December 24th 2025*

## Improvements

- **DSOF - 31806** - Designer will now log more information to the console about certain rendering errors for faster debugging.

## Fixes

- **DSOF - 31866** - Advanced Machine Settings now appear correctly no matter which tab you type them under, as it did before r32.2.
- **DSOF - 31856** - Media Remove API now supports removing files with upper cased names, as it did before r32.2.
- **DSOF - 31875** - Task status API now always report 100% progress on task completion.
- **DSOF - 31857** - Media Remove API now supports removing entire folders.
- **DSOF - 31861** - Proxy files created by the Designer proxy maker are automatically detected, as it did before r30.7.
- **DSOF - 29462** - QSDI VFC cards now always report the correct total resolution.
- **DSOF - 31843** - Clicking on the space widget no longer fills up the undo system with undo operations that do nothing.
