Designer r32.2.4 Release Notes

[Download r32.2.4 Full (Pro)](#)

Full (Pro) build: *236919*
Starter build: *236920*
Released: *January 21th 2026*

Fixes

- **DSOF – 31955** – Ask Ald3n plugin now works properly again.
- **DSOF – 31934** – Renderstream Remote Texture Parameters can now be patched to Sockpuppet again.
- **DSOF – 30181** – Renderstream will no longer intermittently fail to launch the first time an Render node is booted.
- **DSOF – 31923** – Keyframe snapping at certain zoom levels is now more consistent.
- **DSOF – 31862** – Machines with HDMI Capture cared (EX 3+ and EX 2C) no longer require the `enableHDMI Capture` option switch to be set to enable HDMI capture.
- **DSOF – 31082** – Deleting a RenderStream Local layer while it is running will no longer result in an Access Violation.
