Designer r32.2.5 Release Notes

[Download r32.2.5 Full (Pro)](#)

Full (Pro) build: *237380*
Starter build: *237381*
Released: *January 28th 2026*

Fixes

- **DSOF – 31761** – Designer will no longer occasionally CTD when scrubbing through many audio layers when few audio output channels are configured.
- **DSOF – 31926** – VX 4 and VX 4N machines will no longer erroneously report that their Deltacast Drivers are out of date when they are not.
- **DSOF – 31637** – OSC expressions no longer require array indexing for non – array OSC values.
- **DSOF – 31902** – Projects with a Track Jump module that references a tag will no longer briefly hang before closing.
