

Designer r32.2.6 Release Notes

[Download r32.2.6 Full \(Pro\)](#)

Full (Pro) build: 238041

Starter build: 238042

Released: *February 4th 2026*

Improvements

- **DSOF - 30843** - The non-functional "Get your assets" button has been removed from d3 Manager.

Fixes

- **DSOF - 31894** - Designer will now more reliably report the license state of Mellanox NICs in Disguise Servers.
- **DSOF - 32101** - Layer names now correctly show up on exported layers again.
- **DSOF - 31980** - Updating the Nvidia Driver on your laptop above 581 will now no longer cause all RenderStream compressed receiving and sending to fail. We still do not recommend that users update drivers outside of the OS Images Disguise provides, but this should make working on laptops easier.
