

Designer r32.3.3 Release Notes

[Download r32.3.3 Full \(Pro\)](#)

Full (Pro) build: 240388

Starter build: 240389

Released: *February 26th 2026*

Fixes

- **DSOF - 32130** - Notch blocks configured with an SRGBLinear output colour space with Designer in Gamma mode will now display the correct colour.
- **DSOF - 31917 & DSOF - 31916** - Upgrading a project with Sockpuppet patches from any release prior to r31.0 will no longer result in inconsistencies between the old and upgraded Sockpuppet patches.
- **DSOF - 32120** - Configuring an IPV6 address alongside an IPV4 address on your NIC will no longer occasionally cause that NIC to be un - selectable as the d3net adapter (The adapter still requires an IPV4 address to be set).
- **DSOF - 32149** - Timeline tags can now be created with `;` separators again.
