

Designer r32.4.11 Release Notes

[Download r32.4.11 Full \(Pro\)](#)

Full (Pro) build: 253994

Starter build: 253995

Released: *July 1st 2026*

Items marked with a  are also included in [r33.2.3](#).

Improvements

- **DSOF - 33130** - Both [Project Diagnostics and System Diagnostics](#) now include console log files from the last 30 days, rather than only the last seven, so diagnostics collected some time after an issue occurred still capture the relevant logs.

Fixes

- **DSOF - 32563** - Resolved an issue where Designer could not identify Rivermax network adapters by their PCI path, preventing the correct ConnectX - 5 or ConnectX - 6 licence from being selected for IP video.
